

# Local 1004

## Henry Mayo Hospital Workers Union

Members are letting us know about their concerns regarding protective equipment and sanitation needs during the COVID-19 pandemic. We'll be delivering these messages to the hospital to make sure the situation can be further improved to address **your** safety during this crisis.

**Please contact us at the UE Local 1004 Union email at [uelocal1004@gmail.com](mailto:uelocal1004@gmail.com) to share your needs and experiences so that we can be as specific as possible with hospital management. Please submit your email by Wednesday, April 8.** The Union will be scheduling a meeting with hospital management to present the members' concerns.

We'll share more information about a virtual member meeting soon.

**Thank you for your courageous efforts to heal our community at this time.**
